FIRE BLOCK EXTREME INSULATING FOAM SEALANT

NFPA 286 | UL 723 | ASTM E84

TYTAN Professional Fire Block Extreme Insulating Foam Sealant is a fire blocking foam sealant designed to work in the most extreme condisitons, from -4°F to 100°F ambient temperatures!

HOW IT WORKS

TYTAN Fire Block Extreme is a certified draft stopping and fire blocking product. It is orange in color and for easy inspection recognition. Fire Block Extreme uses a minimal shrinking technology to ensure an airtight seal. It offers minimal post-expansion for small gap filling while also being capable of filling gaps up to three inches.

- **Minimal shrinking technology**
- **Adheres to most materials**
- **Extreme temperature applications**

Formulated for:

- **filling free spaces, cracks & gaps**
- **sealing roof, wall and floor joints**
- **sealing around electrical boxes**
- **sealing around plumbing & HVAC**

RECOMMENDED FOR USE WITH TYTAN PRO APPLICATOR

TYTAN's Pro applicator allows everyday professional users to install foam sealants quickly and reliably. It is made with a heavy duty metal construction design and teflon-coated basket that allows exterior mechanical removal of cured foam.

TYTAN Professional is a brand of the Selena Group, a global leader and distributor of construction chemicals and one of the four largest producers of polyurethane foam in the world. Selena was founded in 1992 in Wroclaw, Poland. Visit TYTAN.com/us to learn more, or give us a call at (817) 381-4427.
