

21.04.2026

Dear Sir/Madam,

We would like to inform you that the shelf life of our 60-second polyurethane foam product, currently defined as 12 months, is planned to be extended to 15 months.

This revision is mainly driven by market feedback, as customers tend to avoid purchasing products with a remaining shelf life of approximately 6 months. In practice, our sales cycle ensures that the product is sold well before reaching the 15-month period.

Within this scope, we hereby declare that any quality issues, performance deviations, or customer complaints arising after the initial 12-month period from the production date will be under our full responsibility.

This revision will be implemented based on the necessary technical evaluations and internal quality control processes.

For your information.

Sincerely,

SELENA YAPI MALZEMELERİ SAN. ve TİC. LTD. ŞTİ.

Volkan Keskin
Sales Director
